Keynote Speaker

Mr. Walter Dunn

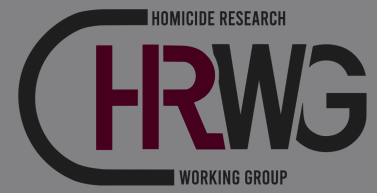

Walter Dunn, an individual with a background in incarceration, has established himself as an author, radio host, and advocate for criminal justice reform. His experience includes a period of incarceration initiated at the age of 26, where he served a 12.5-year sentence for crimes he did not commit.

Mr. Dunn's narrative is characterized by a distinctive turn of events after he was arrested for the first time in his life on charges of home invasion, felony battery, aggravated assault, kidnapping, and later the charge of attempted murder was added by the state prosecutor.

He proactively engaged in self-education, acquiring legal expertise and obtaining certification as a law clerk during his time in prison, ultimately leading to the overturning of his own sentence.

Mr. Dunn actively shares his experience of wrongful conviction on a national scale. He engages in extensive public speaking engagements, addressing audiences at universities, conferences, and summits throughout the country, contributing to the broader discourse on the need for justice reform.
